

G1-to understand the difference between physical, human and environmental geography

Environmental

Human

Physical

Copy the following topics into your homework book and after each one write what type of geography it is.

1. How the earth is changing.
2. What kind of work we do.
3. How and where we shop.
4. How we destroy plants and animals.
5. How we spoil the countryside.
6. How the human race is growing.
7. The places we live.
8. Hazards we face, such as: volcanic eruptions, floods and earthquakes.
9. Natural features, like: rivers, beaches and mountains.
10. How rich or poor we are.

There are 7 words in this grid-all linked to geography.

Find a word
and circle it.
Write it in the
space below.

G2-to use directions

The puzzle below has some geographical words hidden in it.

Follow the directions in each puzzle to spell out the words. (Be careful - there are different starting points for each table.) The first one has been done for you.

Write each letter in the table as you come to it.

For the fourth one, the word has been given and you have to give the directions.

15. The school entrance and the garage		

G4-to carry out research about a country

In your geography lesson, your teacher allocated your group a country to investigate.

After discussing your role in the group, spend the next few weeks researching the area you were given.

Remember that you will be expected to present your work to the rest of the class so you will need to practise independently and with the rest of your group.
